

Lift Boat – Anti-condensation and Sound Control

Client Name and Location: Montco Offshore, Galliano LA

Date of Application: November 2013

Mascoat Representative: Andrew Margarit

Applicator: Mark A Robicheaux Joiners LLC

Coating Used: Mascoat Marine-DTM and Mascoat Sound Control-dB

Primers: International Epoxy

Ship Name: L/B Jill

Areas Applied: Various bulkheads, engine room, thruster compartments

Amount Used: Over 2000 gallons (7570 liters)

Reason for Application: Anti-condensation and sound attenuation

Mils Applied: 40-80 mils (1-2 mm) Mascoat Sound Control-dB & 40-60 mils (1.0-1.5 mm) Mascoat Marine-DTM

Time to Complete: Approx 8 days

Application Notes: This is the second lift boat done for Montco, both built by Robicheaux. With each ship built using Mascoat's coatings, the company has expanded their use each time because of the success seen on the previous build. Pictured is the L/B Robert, a sister ship (that is completed) to L/B Jill.
