

Pinnacle Foods – Process Cookers

Client Name and Location: Pinnacle Foods, Fennville, MI

Date of Application: July 2014

Mascoat Representative: David Mortellaro/John Marble- O’Leary Paints

Applicator: Dave Cole Decorators

Coating Used: Mascoat Industrial-DTI

Application: 3 Cookers

Dimensions: 5’ diameter x 38’ long (1.5 meters diameter x 11.6 meters long)

Reason for Application: Energy Retention and personnel protection

Thickness Applied: 120 mils (3.0 mm)

Time to Complete: 3 days

Starting Surface Temperature: 226°F (108°C)

Application Notes: The client consulted with Mascoat representatives about how to make the areas around 3 of their cookers more comfortable for the workers. Since the coating’s application, they have been extremely pleased with the performance of the product and can really feel that the ambient temperature around cookers has decreased significantly.
